## Get inspired with 3M and Sprung

We've worked with clients worldwide to create and customize their structures, turning them into beautiful spaces inside and out. The possibilities are endless!

### **C LAZY U RANCH** *Colorado Rocky Mountains*

This family-owned guest ranch was built in 1919 and has welcomed families to create memories for generations. Sadly, in 2020, one of the original barns burnt down.

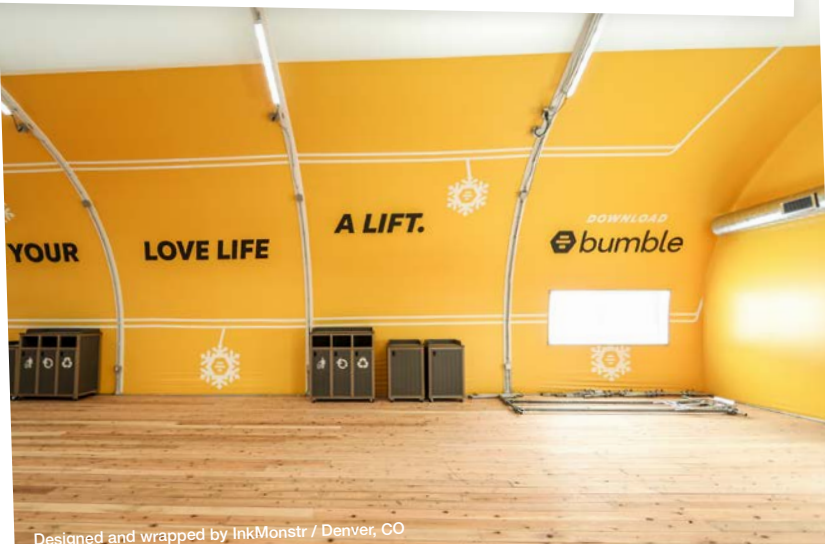

To honour its legacy, a new Sprung structure was erected with vinyl wrap applied to the flat front end, creating a beautiful replica of the original barn.

### **GETTY MUSEUM** *Los Angeles*

Cave Temples of Dunhuang Exhibit: Buddhist Art on China's Silk Road

This 40' wide x 90' long Sprung structure was erected as part of a temporary exhibit at the Getty Museum and removed at the end of a one-year lease. This beautiful space helped create an immersive experience for visitors.

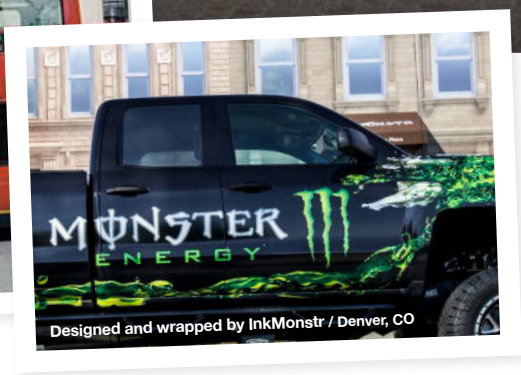

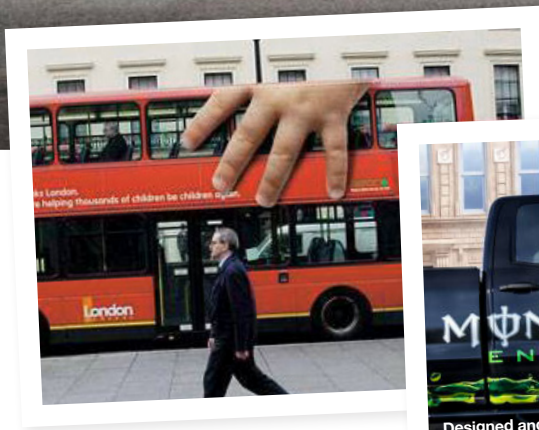

### **ASPEN HIGHLANDS** *Aspen, Colorado*

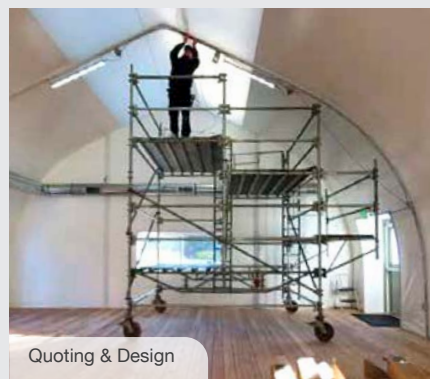

This day lodge added capacity for the Bumble Powder 8 Championship at the iconic mountain resort of Aspen Highlands, home to legendary ski competitions, including the X Games. This branded vinyl wrap was added to the structure's interior and allowed the resort to partner with brands, including Bumble, to promote its app in a creative and fun atmosphere.
