Immediate Building Solutions for Cannabis Production

Solutions for growing, harvesting, processing and selling

A Faster Way to Build

Immediate building for Cannabis Production

Sprung structures are the ideal solution for growers, processors and producers of cannabis products. Our versatile structures are engineered to be built virtually anywhere and are perfect for on-site processing. Designed to be relocatable, Sprung structures can be moved and repurposed as needs change, adapting to growth in your industry.

POTENTIAL APPLICATIONS

- 1 Blackout Growing Structures**
Complete control over your growing environment in a large clearspan structure.
- 2 Greenhouse Growing Structures**
Sprung's specially designed, highly translucent membrane provides diffused lighting for optimal growing conditions and backed by a 10 year membrane guarantee
- 3 On-site Composting**
Avoid pests, mold and rain by composting in a Sprung Structure
- 4 Head houses**
Give your staff space to prepare and protect your crops during the growing process.
- 5 Processing Facilities**
Eliminate the need to transport crops to off-site processing facilities, eliminating damage. Sprung's clear-span design provides unimpeded space for the personnel and machinery used to dry, extract, manufacture and package your products.
- 6 Administration Buildings**
Bright spacious buildings with large windows and daylight panels provide a comfortable space for your on-site admin team
- 7 Retail**
Provide your customers with a welcoming retail experience either on site or in convenient urban locations. Glazing walls and daylight panels will provide bright, positive shopping environments.
- 8 Hail Shelters**
Protect millions of dollars in crops with hail shelters
