Superior Engineering

Rust proof aluminum substructure and patented membrane tensioning system provide a reliable building solution even in the harshest environmental conditions.

Speed of Construction

Over 2,000,000 square feet of inventory available for immediate delivery, a Sprung structure can be erected at a rate of up to 2000 sq ft per day.

Short Term Leasing

Our in house leasing provides a cost effective solution for short temporary applications.

Relocatable Design

Ideal for multi use applications.

Lower Overall Costs

Sprung structures are engineered to accelerate construction, lower project costs and reduce operating expenses.

Limited Foundations

Foundations not required on structures up to 160' wide. Saves time and money.

Energy efficient Insulation

Optional R30 insulation package provides optimum climate control.
